Solid waste disposal

1149.SHRI MANOHAR JOSHI: Will the Minister of URBAN DEVELOPMENT be pleased to state:

whether it is a fct that urban population of 278 million generates 42 million tonnes of solid waste annually;

if so, whether the solution adopted in urban areas is dumping in open landfills;

if so, whether medical wastes and even hazardous chemical wastes are dumped in landfills, leading to serious health hazards through ground water pollution; and

if so, the corrective steps that have been taken by the Union Government in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT (SHRl AJAY MAKAN): (a) Yes, Sir.

Most Indian cities lack efficient arrangement for municipal solid waste management. Normally crude dumping is restored to on open spaces or on roadsides/drains by most of the ULBs in the country without adopting scientific and hygienic approach of sanitary land filling.

and (d) The management of medical waste and hazardous waste are being dealt with by the Ministry of Health and Family Welfare and Ministry of Environment arid Foresu respectively. Necessary information has bemen called for in this regard and reply is awaited.
